

3 Courses

**Responsible AI for
Developers: Fairness & Bias**

**Responsible AI for
Developers: Interpretability
& Transparency**

**Responsible AI for
Developers: Privacy & Safety**

Jul 10, 2024

T. Sathiyarayanan

has successfully completed the online, non-credit Specialization

Responsible AI for Developers

In this specialization, learners gain the essential skills to develop responsible AI systems. The learning journey includes identifying and mitigating bias in machine learning models, applying interpretability techniques to understand and explain AI predictions, and implementing privacy-preserving measures like differential privacy and federated learning. Learners also explore the safety implications of generative AI models.
